

**August 21, 2013... I had a dream.** It was breath-taking. I was carried away to a high mountain with a telescopic view, and the sound and crescendo of background music from a Heavenly Choir. I was facing the Aquarius Constellation and aghast at what I saw.

In my memory of all the Star maps I studied for over the past forty-three years, Aquarius was always half-kneeling, pouring water out of a jug. But in my dream, I saw Aquarius was a very big Man (within speaking distance), sitting on a birthing stool with three midwives assisting in a birth. There were jugs and vessels of water, but the flow of water was actually coming from Aquarius. He was birthing a new life.

In my dream, the Scripture came into my mind; **"I will do a new thing in the Earth."**

I thought, **"This is the NEW thing... a MAN giving birth!"**

Then I was aware that this prophetic Constellation message was decreed millions of years ago; but was fulfilled at the Cross of Jesus Christ. When the soldier pierced the side of Jesus, water came forth; He was giving birth to a New Creation. And we are baptized in His water. That was THE new thing in the Earth; but we have missed **the reality of BEING the new thing.** NOW, the message is repeated night unto night... Aquarius is overhead.

**"We are a New Creation, we are the brand new 'thing.'"**
